Program of Judging

JUDGING STARTS PROMPTLY AT THE HOUR APPOINTED AND WILL CONTINUE WITHOUT INTERMISSION UNTIL THE JUDGE HAS COMPLETED HIS OR HER ASSIGNMENTS FOR THE SESSION.

During the hours of judging, owners and handlers are requested to have their dogs at the ringside when their classes are called so that the judging may not be retarded.

JUDGES SHALL NOT WAIT FOR ANY DOG HOLDING UP A CLASS.

It is the responsibility of the exhibitor to have his dog ready to be shown and at the entrance of the judging ring when the class is called. Owners or handlers of the dogs alone are responsible for the presence of their dogs in the judging rings. It is not the responsibility of the ring steward or ring runner to locate any dog, its owner and/or handler when the dog's presence is needed in the judging ring.

STANDARD FOR THE AFGHAN HOUND

Submitted by the Afghan Hound Club of America

Approved by Board of Directors of American Kennel Club,
September 1948

GENERAL APPEARANCE:

The Afghan Hound is an aristocrat, his whole appearance one of dignity and aloofness with no trace of plainness or coarseness. He has a straight front, proudly carried head, eyes gazing into the distance as if in memory of ages past. The striking characteristics of the breed—exotic or 'Eastern' expression, long silky topknot, peculiar coat pattern, very prominent hip bones, large feet, and the impression of a somewhat exaggerated bend in the stifle due to profuse trouserings—stand out clearly giving the Afghan Hound the appearance of what he is, a King of Dogs, that has held true to tradition throughout the ages.

HEAD:

The head is of good length showing much refinement, the skull evenly balanced with the foreface. There is a slight prominence of the nasal bone structure causing a slight Roman appearance, the center line running up over the foreface with little or no stop, falling away in front of the eyes so there is an absolutely clear outlook with no interference; the underjaw showing great strength, the jaws long and punishing; the mouth level, meaning that the teeth from the upper jaw and lower jaw match evenly neither overshot nor undershot. (This is a difficult mouth to breed. A scissors bite is even more punishing and can be more easily bred into a dog than a level mouth, and a dog having a scissors bite, where the lower teeth slip inside and rest against the teeth of the upper jaw should not be penalized). The occipital bone is very prominent. The head is surmounted by a topknot of long, silky hair.

EARS:

The ears are long, set approximately on level with outer corners of the eyes, the leather of the ear reaching nearly to the end of the dog's nose, and covered with long, silky hair.

EYES:

The eyes are almond shaped (almost triangular), never full or bulgy and they are dark in color.

NOSE:

The nose is of good size, black in color.

FAULTS: Coarseness; snipiness; overshot or undershot; eyes round or bulgy or light in color; exaggerated Roman nose; head not surmounted with topknot.

NECK:

The neck is of good length, strong and arched, running in a curve to the shoulders which are long and sloping and well laid back.

FAULTS: Neck too short or too thick; a ewe neck; a goose neck, a neck lacking substance.

BODY:

The back line appears practically level from the shoulders to the loin, strong and powerful loin and slightly arched, falling away toward the stern, with the hip bones very pronounced; well ribbed and tucked up in flanks. The height at the shoulders equals the distance from the chest to the buttocks; the brisket well let down and of medium width.

FAULTS: Roach back; sway back; goose rump; slack loin; lack of prominence of hip bones; too much width of brisket causing interference with elbows.

TAIL:

The tail is set not too high on the body, having a ring or a curve on the end. It should never be curled over, or rest on the back, or be carried sideways, and is never bushy.

LEGS:

The forelegs are straight and strong with great length between elbow and pastern; elbows well held in; forefeet large in both length and width; toes well arched; feet covered with long, thick hair, fine in texture; pasterns long and straight; pads of feet unusually large and well down on the ground. Shoulders have plenty of angulation so that the legs are well set underneath the dog. Too much straightness of shoulder causes the dog to break down in the pasterns, and this is a serious fault.

All four feet of the Afghan Hound are in line with the body, turning neither in or out. The hind feet are broad and of good length; the toes arched, and covered with long, thick hair; hindquarters powerful and well muscled with great length between hip and hock; hocks are well let down; good angulation of both stifle and hock; slightly bowed from hock to crotch.

FAULTS: Front or back feet thrown outward or inward; pads of feet not thick enough; feet too small; or any other evidence of weakness in the feet; weak or broken down pasterns; too straight in stifle; too long in hock.

COAT:

Hindquarters, flanks, ribs, forequarters, and legs are well covered with thick, silky hair, very fine in texture; ears and all four feet well feathered. From in front of the shoulders, and also backwards from the shoulders along the saddle from the flanks and ribs upwards, the hair is short and close, forming a smooth back in mature dogs—this is a traditional characteristic of the Afghan Hound.

The Afghan Hound is shown in its natural state; the coat is not clipped or trimmed; the head is surmounted (in the full sense of the word) with a topknot of long, silky hair—this also an outstanding characteristic of the Afghan Hound. Showing of short hair on cuffs on either front or back legs is permissible.

FAULTS: Lack of short haired saddle in mature dogs.

HEIGHT:

Dogs, 27 inches, plus or minus one inch.

Bitches, 25 inches, plus or minus one inch.

WEIGHT:

Dogs, about sixty pounds.

Bitches, about fifty pounds.

COLOR:

All colors are permissible, but color or color combinations are pleasing. White markings, especially on the head, are undesirable.

GAIT:

When running free, the Afghan Hound moves at a gallop, showing great elasticity and spring in his smooth, powerful stride.

When on a loose lead, the Afghan can trot at a fast pace. Stepping along, he has the appearance of placing the hind feet directly in the foot prints of the front feet, both thrown straight ahead. Moving with head and tail high, the whole appearance of the Afghan Hound is one of great style and beauty.

TEMPERAMENT:

Aloof and dignified, yet gay.

FAULTS: Sharpness or shyness.

HOLLY HILL AFGHAN HOUNDS

Ch. Holly Hill Draco and Ned Kauffman
DRACO was B.I.S., 1961 A.H.C.A.

1965 finds Holly Hill off to a new breeding program. Many of the puppies at our kennel hold promise of carrying Holly Hill banners in the show ring. Puppies are available sired by Ch. Holly Hill Desert Wind (Best In Show winner) and Bletchingley Draughtsman (an English Import). Dams of these litters are Ch. Holly Hill Lorna Doone (Dam of Champions) and Holly Hill Indus (Dam of Champions and litter sister of Best In Show winner Ch. Holly Hill Draco). WE SELL OUR GOOD ONES!

In the future Holly Hill will attempt to maintain its top show records. Our aims are the same that produced many, many Champions; placed Holly Hill Afghans as foundation stock in other kennels; produced Afghans good enough to win All-breed and Specialty Best In Shows; bred Afghans that placed among the Top Ten All-breeds of Hounds in 1961, 1963 and 1964; and bred an Afghan that helped its owner become Quaker Oats award winner for the Owner-Handler of 1964.

Among our fondest memories are the beautiful Afghans at the AHCA Specialty shows. We miss them all so very much. We were so proud of "Khabira Shady Lady," owned by Mr. and Mrs. Werner Sheldon, winning WB at the 1964 Specialty. She is our own Afghan granddaughter, sired by a dog we bred: Ch. Khabira Khan.

Good luck and best wishes
for the 1965 show

CH. SERIA OF SCHEHEREZADE

Ch. Seria, together with her famous kennel mate, B.I.S. Ch. Alibaba, were both sired by B.I.S. Ch. Bletchingley Ragman of Scheherezade. The trio pictured on these pages have taken the Breed or B.O.S. 40 times in their last 42 consecutive shows from the Carolinas to New York. Ch. Seria has been undefeated by a bitch in the breed the past year. Both Champions Alibaba and Ragman would like to congratulate their sons and daughters here today and to wish them and their owners the best of luck. Champions Alibaba and Ragman are at stud to approved bitches. Their worth as studs is no secret, having sired over 220 pups. Their sons and daughters have been exported to serious breeders and exhibitors around the world, including England, France, Germany, Denmark, Switzerland, Finland, Italy, Spain, North Africa, South America, Alaska and far off Hong Kong.
